Melissa,

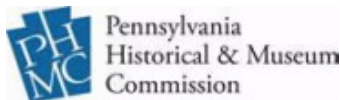

Is it helpful for your calendar/schedule for me to chat with Trish about the PO?

I can gather what she needs and how-arranged and get back with Jim. Just trying to decrease the load on you.

Tyler

Good news! We'll provide them with all the information they need to understand that we have a plan and are committed to repairing and updating the asset. I'll check with Trish Frey in the morning on the PO and get back to you. Thanks!

Waiting to get the financial #'s from Billy but USCG in Cleveland has approved for us to come get hauled out on Nov. 6 & they'll be available for the inspection that week. They (USCG) DO want a plan of how we plan on dealing w/ our outstanding 835's in the Spring and I believe generally what our intentions are in dealing with the needs of this aging ship. I think letting them know that we recognize that there needs to be a substantial investment made in Niagara for it to reliably remain in public service & we have the intention, pocketbook, and solid plan to do just that. I think that Andrea's idea of going ahead w/ ordering the new props is a great one too & I'll look to follow up on that. Am assuming we'll need a PO for this & I've not had to get one of those here yet.....

Hi Jim & Tyler,

I spoke with Andrea and walked her through the new plan for shipyard, including the non-destructive test. She's onboard, but I still need to see the numbers for final authorization. We do have one other stipulation for approval. FNL needs to derig the ship immediately upon return.

Any word from Cleveland USCG? Andrea also agreed to the letter of intent to the USCG. I'll be drafting that tomorrow. She also suggested that we could show good faith by ordering the new props before 11/6. Jim, let me know what you think of that prospect.

Thanks,

Melissa
