FYI:

Winter Cover Manual scanning is done so I will hold on to the actual hard copy in my office until one of you comes to fetch it – don't want to leave it out on a counter & have it walk off!!

Thank you very much – will review now & let's keep this rolling - JIM

Hi Jim,

Absolutely. Billy has asked me to prioritize this as well to make sure we update the scope of work for approval and have a plan for the remaining unspent Keystone funding for this fiscal year. I will also be working on planning and future ship maintenance needs including shipyard. I do understand the limited time we have to make sure we can invoice and cover as much as we can related to the cover with this Keystone and use any remaining funds for additional Niagara needs. I will get with the team and get back to you soon. This is a top priority.

Talk to you soon,
Chris

Hey, I recognize that you're all getting ready to take off on Sunday for this 1st sail training of the season BUT IF YOU CAN TRY TO PULL TOGETHER WHATEVER FILES you have with **the plans/fabrication info for a replacement canvas cover** for Niagara & get them to me, that would be ideal.

I can scan whatever you've got & then have it to give back to you when you're back @ the end of the month but I DO want to get this replacement planning/construction underway ASAP so we're not left out in the proverbial cold come the end of this summer!!

Our intent is to get rolling on this with the yet "uncommitted" (unspent) FY2023 Keystone funds before the end of this FY so I need to engage potential fabricator(s) ASAP to start the process (procuring materials, getting them the plans so they can figure out the scheduling of work, etc.).

Thanks - JIM
