

Please provide instructions on how to effect payment for the required fees.

Thank you again for all of you help,
Greg

Subject: RE: [External] FW: -TallShip "Niagara" Pilotage Fees

Good morning Gregory,

See attached revised estimate for a class 1 vessel with the 2025 Tariff increase of 4%.

If your trip takes place mid-April, the Welland Canal is always single pilotage and in Cornwall District it should be single pilotage, but it all depends on the ice condition.

There is no change in the surcharge, still 5% on all invoices.

You will need to pay your trip in advance, unless you use a Seaway agent that has an established account will us.

Please don't hesitate to contact if you have any questions.

Best regards,

Julie Beaulieu
