Subject: EXTERNAL -RE: EXTERNAL -RE: [External] FW: -TallShip "Niagara" Pilotage Fees

Christian,

Happy New Year! I hope you are well. Things are moving into the late stages of planning for the project and kinda the middle of my passage planning process. To move ahead with my passage plan, I've a couple questions:

Will all canal/pilotage fees be required up front, at the end, or broken into portions as the passage progresses?

Is there any indication what tariffs will look like around mid-April (or is it hard to say based on the chaos of the new administration down here)?

Will there be any changes to surcharges?

I appreciate all the help you've provided so far.

Thanks,

Greg
