Subject: EXTERNAL - TallShip "Niagara" Pilotage requirements / Fees

Good Morning Richard,

I do hope this finds you well. I am reaching out as I was contacted by Capt. Greg Bailey of the Tallship "Niagara" (Greg is in copy, please reply to him directly).

He is planning on a downbound transit through both regions in Spring 2025. He was inquiring what his pilotage requirements would be (if any) and an estimate of costs for budgeting.

The Niagara has been down through the Canal before (i think 2019 may have been the most recent) And this is the info I have in my system and may well be out dated.

[cid:image003.gif@01DB81F0.42FF3FC0]

If you could please help Capt Bailey out as he is doing a budget for his trip. I am sure he will appreciate your help.

Kind Regards,
Gavin
